

Profi Joint active

Concentrate

Feed supplement for horses

Profi Joint active contains not only glycosaminoglycans and omega-3 fatty acids from the concentrate of the New Zealand green-lipped mussels but also vitamins, trace elements, diatomaceous earth and herbs. These support the continued strengthening of tendon and joint structures and ensure increased elasticity and resilience of the connective tissue.

The benefits at a glance:

- low dosage
- strengthens the connective tissue
- can be used to support treatment for osteoarthritis and spavins
- stabilises joint structures
- may promote production of collagen (cartilage)

Recommended feeding:

Feeding recommendation:

ponies & foals: 10 g per day
light horses: 15 g per day
larger horses: 25 g per day

1 measuring spoon = 20 g
